Hello Esteban,

Can you please have someone check on the board located on 5600 North Figueroa? A safety concern was sent to the Council Office regarding the boards condition. I understand we are waiting for BOE at this time.

Please see the safety concern below and image attached.

Let me know if you have questions.

Thanks

I would like to know when are you guys going to finish this project. I dont think you guys understand how dangerous it is. I seen two kids fall because its not sturdy. Ive seen an old lady fall because the wood bends like a trampoline. Something has to be done change the wood or put up some caution tape. This project is taking way to long. It is located in front of the movie theater on ave 56 and fig.
